tection to American industries who brings to his own house and family sugar from China.

Suppose the grocer gave his customer the benefit of the lower price and gave them one more pound of Chinese sugar than of American sugar for \$1, few families would save over thirty cents a year. It is ridiculous, and no one will listen to it. Hence the secrecy. Hence the "merchandise." This is why no grocer asks you which you will have, American or Chinese sugar.

Let every American stand for American goods. Find out what you are getting. At least pay for what you get, and get what you pay for. That is the kind of protection that protects.

The government in order to protect its citizens against practices of this kind requires that all imported goods shall be plainly marked with the name of the country from which it came. But little sugar is sold in original packages, and the good effect is lost. If you buy a bag of Chinese sugar, you will find in the middle of the bag the words Hong Kong, provided your eyesight is good and provided it has not been marked over with a marking brush.

A change will come about when every customer asks what sugar he is getting, and insists on getting his money's worth and lets the light in on this secret "merchandise."

There is spent for labor alone on the Pacific coast \$500,000 annually by American refineries. They buy Washington coal, Oregon barrel staves, paper, etc., and in a great many ways the distribution of this vast sum of money is of benefit to our communities.

The first question to ask oneself is, what can I do to help my fellow man, my fellow workman and the country in which I live? First, by knowing what sugar you use yourself, and secondly, by seeing you are supplied with no other than the American made article, made by American workmen, in American cleanly factories, operated by American capital, paying American wages, in good American coin, and keeping the American money at home, not sending it abroad to support the corruption and corrupt influences of a nation stained with infamy, blackened by disease and odorized with the death of its inhabitants.

We have here in our glorious state of Washington, and sister state of Oregon, as evidenced by the exposition of the Manufacturers' and Producers' Association you have just closed, one of the greatest fields for bees in this or any other country. In rejecting the coolie-made stuff called sugar, and buying only American-made goods, you are encouraging and strengthening the hands of your neighbor farmer and building up an industry which you will yourself share and in time proudly realize the greatness of the soil upon which we live and which God has blessed with a special providence as uncompromised on the face of the globe. ## A New Trial Denied Durrant's.

SAN FRANCISCO, Dec. 6.—Judge Murphy this morning denied Theodore Durrant's motion for a new trial, and ordered the prisoner back to jail. A large force of deputy sheriffs was necessary to aid in guarding the entrance. The crowd was as large as during the trial. The court was satisfied no error had been made, and that Durrant's trial had been fair and impartial; the jury's verdict had been in accordance with the law and evidence. Durrant was then ordered to stand up. He rose, pale and scowling, but as impassive as ever. The court then pronounced sentence, which was that Durrant be kept in close confinement by the sheriff in the county jail, and within ten days be delivered to the warden to San Quentin state prison, there to be kept in close confinement until such day to be afterward fixed, when he should be hanged in San Quentin until dead. Durrant heard his sentence without a twitching muscle, staring at the judge defiantly. Then he sat down, made some remark to his father and smiled. Dickinson, for the defendant, said he would this afternoon give formal notice of an appeal to the supreme court.
